Flat Panel Filter 8mm - 11mm

8mm or 11mm aluminium mill finish frame flat panel filters.

- The filters can have different filter media inserted.
- Electrostatic filter media.
- Thrip control media.
- G-2 Grey/Black filter media is standard.
- Aluminium mesh.

Filters can be made to any size required.

Filters that are made with electrostatic nylon filter media have low air flow resistance which is ideal for units with air flow restrictions.

We make custom made panel filters to any size.

Panel filters.
